

ROPS Mount Kits

The **ROPS Mount** offers a tough and versatile mounting point on your Roll Over Protection Structure (ROPS), no drilling into the ROPS or damaging it. Whether you're attaching a toolbox, or keeping your headphones or gear within arm's reach, this mount provides a solid and reliable solution. Made of Made from **PETG** (modified Polyethylene) for strength and flexibility. Buy a pair of Hook Kits and you've got the perfect setup for carrying long-handled tools like a whipper snipper, shovel, or rake — enhancing your tractor's versatility and efficiency.

Key Features:

- Comes with all mounting hardware (nuts & bolts)
- Small catch at the front of the hook allows a bungee cord to be added to secure your load
- Heavy-duty and long-lasting
- Multipurpose and adaptable
- Ideal for tools, lights, and gear
- Made in Australia by us
- Available in 3 major sizes to fit most tractors, mowers, ATV and earth moving equipment:
 - 1.5"x3" (40mmx75mm)
 - 2"x2" (50mmx50mm)
 - 2"x3" (50mmx75mm)
